Notes to the Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2021

(Unaudited – Expressed in U.S. Dollars)

1. CORPORATE INFORMATION AND GOING CONCERN

Azarga Uranium Corp. (“Azarga Uranium”) was incorporated on February 10, 1984 under the laws of the Province of British Columbia, Canada. Azarga Uranium’s common shares are publicly traded on the Toronto Stock Exchange (“TSX”) (Symbol: AZZ), the Frankfurt Stock Exchange (Symbol: P8AA), and the OTCQB Venture Market (Symbol: AZZUF). Azarga Uranium, together with its subsidiaries (collectively referred to as the “Company”), is an integrated uranium exploration and development company.

The Company controls uranium properties located in the United States of America (“USA”) with a primary focus of developing in-situ recovery uranium projects. The Company’s Dewey Burdock Project, located in South Dakota, USA, is the Company’s initial development priority. The Company also owns uranium projects in Wyoming, Colorado, and Utah.

The Company’s corporate and registered and records office address is Unit 1 – 15782 Marine Drive, White Rock, BC, V4B 1E6.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which contemplates that the Company will continue operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business as they fall due. To date, the Company has not generated revenues from operations and is currently in the exploration and development stage. As at March 31, 2021, the Company had working capital of \$1,369,698 and an accumulated deficit of \$29,867,225 and will continue incurring losses for the foreseeable future. Additional funding will be required by the Company to complete its strategic objectives and continue as a going concern. There is no certainty that additional financing, at terms that are acceptable to the Company, will be available. The Company has successfully raised financing in the past and will continue to assess available alternatives; however, there is no assurance that the Company will be able to raise additional funds in the future. These material uncertainties cast significant doubt on the Company’s ability to continue as a going concern.

In March 2020, the World Health Organization declared COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, has adversely affected workforces, economies, and financial markets globally. To date, this pandemic has had a limited impact on the Company’s operations as the Company has continued to advance permitting on its Dewey Burdock project and raise capital. However, it is not possible for the Company to ultimately predict the duration or magnitude of the adverse impacts of the outbreak and its effects on the Company’s business or ability to raise funds.

These condensed consolidated interim financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate.

2. BASIS OF PRESENTATION

2.1 Statement of compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” using accounting policies in compliance with International Financial Reporting Standards (“IFRS”) and interpretations issued by the International Accounting Standards Board and interpretations of the IFRS Interpretations Committee.

These condensed consolidated interim financial statements for the three months ended March 31, 2021 were approved and authorized for issue by the Company’s Audit Committee on May 12, 2021.

2.2 Basis of presentation

These condensed consolidated interim financial statements do not include all of the disclosures required for annual financial statements, and therefore should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2020.

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for financial instruments, which are measured at fair value. The Company’s financial instruments are further disclosed in Note 11 of these condensed consolidated interim financial statements.

2.3 Presentation currency

These condensed consolidated interim financial statements are presented in United States Dollars, unless otherwise indicated. All references to \$ refer to the United States Dollar and all references to C\$ refer to the Canadian Dollar.

The functional currency of each entity is determined by the currency of the primary economic environment in which the entity operates. The functional currency of each entity is the United States Dollar.

2.4 Significant accounting judgments and estimates

Information about judgments and estimates in applying accounting policies that have the most significant effect on the amounts recognized in the Company’s consolidated financial statements are included in Note 2.4 to the Company’s December 31, 2020 consolidated annual financial statements. There were no material changes to the significant accounting judgments and estimates from December 31, 2020.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Significant accounting policies

The accounting policies applied by the Company in these condensed consolidated interim financial statements are the same as those applied by the Company as at and for the year ended December 31, 2020.

3.2 New standards, interpretations and amendments not yet effective

A number of new standards, amendments to standards and interpretations are not yet effective as of March 31, 2021 and have not been applied in preparing these condensed consolidated interim financial statements.

Effective for annual periods beginning on or after January 1, 2023:

- Amendments to IAS 1 Presentation of Financial Statements, clarify how to classify debt and other liabilities as current or non-current. The amendments help to determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments also include clarifying the classification requirements for debt an entity might settle by converting it into equity.

The Company has not early adopted this revised standard and its adoption is not expected to have a material effect on the Company's consolidated financial statements.

4. SEGMENTED INFORMATION

The Company operates in one business and geographical segment being the exploration and development of uranium properties in the USA. Total assets attributable to the geographical location relate primarily to exploration and evaluation assets which are disclosed in Note 5.

6. LOAN PAYABLE

In May 2020, the Company received a loan under the USA Payroll Protection Plan ("PPP") of \$100,625 that bears interest at 1% per annum and matures May 3, 2022. In accordance with the terms of the PPP, the Company applied for forgiveness of the principal and interest in November 2020 and expects the amounts to be forgiven. During the three months ended March 31, 2021, the Company recorded interest expense of \$248 in relation to this loan.

7. EQUITY (Continued)

7.4 Equity settled compensation arrangements

ESPP

In 2015, the Company adopted an ESPP, as amended. The Company is authorized to issue up to 9,000,000 common shares pursuant to the terms and conditions of the ESPP. Employees, who elect to participate in the ESPP, can contribute up to 50% of their salary (the “Employee Contribution”). The Company will then match 66.67% of the Employee’s Contribution (the “Matching Contribution”). The purchase price of the common shares is calculated based on the five-day volume weighted average trading price of the common shares on the TSX immediately preceding the end of each calendar quarter. The Employee Contribution and the Matching Contribution are expensed in the period in which they are incurred with the offsetting amount being recorded in contributed surplus until the common shares are issued.

For the three months ended March 31, 2021 and 2020, Employee Contributions totaled \$50,625 and \$43,125, respectively, and Matching Contributions totaled \$33,752 and \$28,752, respectively. As at March 31, 2021, a cumulative total of 8,026,727 common shares have been issued pursuant to the ESPP. Subsequent to March 31, 2021, the Company issued 395,911 common shares pursuant to the ESPP, see Note 14.

DSA

In 2015, the Company adopted the DSA, as amended. The Company is authorized to issue up to 3,500,000 common shares pursuant to the terms and conditions of the DSA. Directors who elect to participate in the DSA contribute 50% of their director fee/salary to the ESPP and the remaining 50% of their director fee/salary is settled through the issuance of common shares in accordance with the DSA. The purchase price of the common shares is calculated based on the five-day volume weighted average trading price of the common shares on the TSX immediately preceding the end of each calendar quarter. Amounts settled in accordance with the DSA are expensed in the period in which they are incurred with the offsetting amount being recorded in contributed surplus until the common shares are issued.

For the three months ended March 31, 2021 and 2020, \$4,583 and \$13,750, respectively, were expensed under the DSA. As at March 31, 2021, a cumulative total of 2,094,773 common shares had been issued pursuant to the DSA. Subsequent to March 31, 2021, the Company issued 21,504 common shares pursuant to the DSA, see Note 14.

8. SHARE OPTION RESERVE

8.1 Stock option plan

The Company has a rolling stock option plan, which permits the Board of Directors of the Company to grant stock options for up to 10% of the outstanding common shares of the Company. The exercise price of an option shall not be less than the discounted market price at the time of granting as prescribed by the policies of the TSX. The maximum term of the stock options is ten years from the grant date. Vesting terms are at the discretion of the Board of Directors.

8.2 Stock option continuity

The continuity of stock options for the three months ended March 31, 2021 is as follows:

11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continued)

11.2 Fair value

The fair value of financial assets and financial liabilities measured at amortized cost is determined in accordance with generally accepted pricing models based on discounted cash flow analysis or using prices from observable current market transactions. The Company considers that the carrying amount of all its financial assets and financial liabilities measured at amortized cost approximates their fair value.

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

- Level 1 fair value measurements are those derived from quoted prices in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1, that are observable either directly or indirectly.
- Level 3 fair value measurements are those derived from valuation techniques that include inputs that are not based on observable market data.

The fair value of the Company's warrant liabilities is recorded at fair value using Level 3 of the fair value hierarchy. The carrying value of the warrant liabilities is determined using the Black-Scholes option pricing model.

The carrying values of cash, trade and other payables and loan payable approximate their fair values because of the short-term nature of these financial instruments and are classified as financial assets and liabilities at amortized cost and are reported at amortized cost.

The carrying values of restricted cash, decommissioning liabilities and lease obligations approximate their fair values as they are measured at amortized cost and discounted using appropriate rates.

12. COMMITMENTS

	Within 1 year	2-4 years	Over 4 years	Total
Annual license payments *	\$ 467,567	\$ 458,198	\$ 1,707,904	\$ 2,633,669
Centennial option agreement **	-	-	3,165,000	3,165,000
Dewey Burdock option agreements	62,500	390,000	1,441,250	1,893,750
	\$ 530,067	\$ 848,198	\$ 6,314,154	\$ 7,692,419

* annual license payments include lease and mineral claim payments.

** the contingent payments are payable upon receipt of regulatory permits and licenses allowing uranium production on the area of the Centennial Project pertaining to these uranium interests. Further, since the required licenses and permits were not received by September 27, 2019, the uranium rights, at the option of the seller, can be transferred back to the seller. The Company is attempting to renegotiate the Centennial Project option agreement.

Certain of the Company's commitments may provide the Company with the ability to avoid funding those commitments; however, the Company discloses the contractual maturities of the Company's commitments based on management's intent.
